

Dear friends,

2026 is off to a good start. The printing ministry has been doing well despite some mechanical setbacks.

Please pray for my coworker and friend, Luis. He was cutting tracts in our print room, and he cut his finger pretty badly. Thankfully his finger wasn't severed, but he did cut most of the fingernail off.

I have started my second semester teaching English to around 300 of our college students here at Mount Zion Baptist Church. Several of my students are showing a lot of initiative and interest in learning. My hope is that as time goes on, some of them will be well-equipped to serve in our ministries in some of the English speaking countries we have planted churches in.

My favorite soul-winning story from this month took place when I was with our full-time soul-winners. I was able to lead the first person I approached that day to the Lord. However, after that, I had much difficulty finding someone willing to listen. We took our lunch break in a park a few hours later. As we were finishing our food, a nearby school had let out, and many children flooded into the park to play. A few of them asked us to spin them on the merry-go-round as we could spin them faster than their classmates. After a few dizzy minutes, a couple of our lady workers encouraged me to witness to the group. I was able to present the Gospel to 7 children who all received Christ as Savior that afternoon.

Our church was having a big promotion earlier this month, and we were able to print the flyers for it. That Sunday we ended up seeing 960 visitors!

**We saw 63 saved this month.** Thank you all for your prayers and support.

God bless.

~Stephen and Wendy Simmons
