

Andrew & Summer Chafa

“...how shall they believe in him of whom they have not heard?” - Romans 10:14

April - May 2026

Over Seas: Through the month of April, work continued in Antigua, West Indies assisting missionaries Nathan and Renee Owens at the Caribbean Radio Lighthouse. As we prepared for the arrival of the AM transmitter, we continued to work alongside the staff at the station, install a new weather monitoring system, continued wiring and prepping for the new transmitter, program the new console, concrete projects, and maintenance.

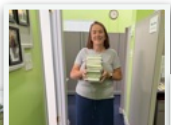

One of our biggest blessings was when 45 Grace Baptist Academy students came for a tour of the station. The class was studying communication. We shared with them the most important Truth that each of us is responsible for communicating - the Gospel. We used volunteers from the students to demonstrate each basic piece of equipment used in a station from microphone to broadcast. Our emphasis was that every piece of equipment from the beginning to the end is equally important. If you remove one piece then the whole system is hindered or doesn't work at all. It takes each and every one of us doing our part using different tools and skills we have to reach the world with the Gospel.

At the end of April, the AM transmitter arrived and we were able to be there to set it into place and begin the process of getting it ready for operation. Due to our visa time limit and later date of the transmitter's arrival, we were not able to stay until completion, but are happy to report the station is up and functioning at 10,000 watts! Praise God for being able to help in this amazing ministry.

Stateside: As soon as we returned, we hit the ground running with a quick trip to North Dakota, serving at our church's Our Time Youth Conference, videoing a Gospel presentation and Welcome video for a church in Missouri, and ending the month with an out-of-state meeting.

Exciting News: After hundreds of hours spent on building, correcting, and adding metadata to our music file for our online station - Edify radio, ***the file is complete, uploaded and running!*** We are so excited to have this done as we continue to include a variety of new programs for our increasing audience! We hope it will be a blessing to you. You can find us through the Live365 app and on myTuner Radio app, search either one for "Edify". We believe in doing what we can, where we can, while we can to proclaim the Gospel. To contact us regarding the radio station, please email edify@tech2proclaim.net

Thank you to all that support us as we serve, we are grateful. Please pray for three projects on three different continents that are in the beginning stages. Also please pray with us as we try to balance ministry projects while aggressively focusing to finish raising our support. (34% to go!) If you know of a solid ministry that would desire to partner with us, please refer us or let us know so we can connect.

By His grace and for His Glory,

Andrew & Summer Chafa
