SEPTEMBER / OCTOBER 2026

Debbie has a passion to equip young people to play the piano so that they will be able to help serve in the various satellite works through the gifts that the Lord has given them in the area of music. We are greatly blessed to see several of her students progressing to the point where very soon they will be playing for the midweek service. | This past month several of our young people graduated from high school and are making important decisions that will impact the rest of their lives. One of the graduates, Srey Yi, met with me this past week to seek advice about her future. We rejoice that her mother recently gave her blessing for Yi to attend Bible College in preparation to pursue what she believes God's will to be for her life. **Pray with us that the recently graduated seniors in our church will continue to be sensitive and obedient to God's will for their lives.** | Bunna and Neang were recently saved and baptized and it has been a great blessing to see the spiritual growth and boldness in both of their lives. They have been greatly burdened to see their adult children saved and this past week two of them attended church for the first time! **Pray with us that Bunna and Neang will continue to walk with the Lord and live for Him as light and salt in their own family.** | While out soul-winning this past week we met the couple who lives in this small house just at the edge of the railroad tracks. The wife told us that she had never heard the name of Jesus...She is 71 years old. We are intentionally working to build a relationship with them that will open the door to present the gospel to them. **Pray with us that we will see Chantoul and Sophea come to know the Lord.**

CHURCH PLANT AT JUMREAY

CHURCH PLANT AT ANJING

BUNNA & NEANG

CHANTOUL & SOPHEA

We broke ground on the new Bible College dorms and anticipate seeing how the Lord will allow the building to be used to train more laborers for His harvest field. We are still short perhaps \$25,000. **If you would like to help with this project please contact me.** | **We greatly anticipate the three new church plants that are scheduled to kickoff in November!** We have already rented properties for two of the plants and plan to build a simple aluminum structure for the third. We will be structuring these new church plants in a way that will enable every member of our Phnom Penh church to be personally involved if they desire to do so. **Lom and Peng will be members of the new plant in Rokakoung village and they are excited to finally have a church in their village.** They presently have to travel more than an hour to get to our church here in the city. **Please watch the video for more details about the dorm project and these three new church plants.** Because of God's grace, *Dave & Debbie*
