July-August

Dear Church,

We are ramping up for "Missions Conference Season" and are very excited for what is ahead. Between September and October, we are scheduled to participate in eight Missions Conferences and will be visiting ten churches across six different states. Seven of these conferences are back-to-back.

As most of you know, Nepal has been in the news recently. At the Tibet/Nepal border, an avalanche blocked a river for a few days before bursting through and destroying everything in its path. While no Baptist missionaries were harmed, the reported number of deaths and missing persons continues to rise daily. As of September 1, the combined number of dead and missing Nepali and Tibetan people stands at 5,488 souls. When the flood happened, children were at school on the mountainside while their parents were working in the village below. As a result, over 360 children have lost their parents. A friend of mine is working with another national pastor from that village to provide financial and charitable support through the church. Please pray about whether the Lord would have you give to this great need.

Considering that Nepal remains 90% unreached and Tibet 100% unreached with the gospel, it is heartbreaking that nearly all of those souls passed away having never heard the Gospel. Please pray for more laborers to be sent into the field.

July was a slow month for meetings, but we praise the Lord for a busy August. Please pray that the churches we visited will consider taking us on for monthly support to bring us closer to our ministry in Nepal.

Over the last few months, we have also been able to participate in soul-winning and Bible handouts. The Lord allowed me to lead a young man to Christ at church and a young lady to the Lord during a Bible handout. What a blessing!

We also have a huge praise regarding the potential law change mentioned in my previous prayer letter. The government's proposed change was successfully voted down and will not go into effect. We praise the Lord for this victory, though we remain mindful that it could be reintroduced in the future.

Thank you for your vital prayer support. It is deeply needed and greatly appreciated.
