

Hardie - 10/4/2026

Greetings all,

We have been extremely busy making runs to the Senanga General Hospital. We have provided charcoal, a braiser (for cooking), and several food items to supplement a four year old daughter who had a blood transfusion this past Monday. We visited the families home due to the Hospital discharging them initially seeking this past Thursday, but, to give us time to research and Make sure all was well they gave the Father an extra day. He speaks strictly Lozi, sadly in the past weeks his wife and Grandmother passed away that normally care for the child. That was yesterday. Everyday something new is happening, new babies in Need, a couple babies passing. We are so thankful for the anyomous donor that enabled our formula and food assistance as well as our ministering the Word of God both in Senanga and in Mongu.

A few weeks down the road we will be heading to Northwestern where Samuel will take his Seventh Grade exams. In November he will take a couple test for eighth grade placement as the Lord wills.

Had a nice day of Remembering The Lord Jesus in His death, fellowshipping with the Mongu brethren who also had a Gospel meeting, ministry meeting, and a Bible study. We stayed with a dear family Saturday evening, through Sunday, and will be engaged in another meeting with the Province Social Welfare officers, appreciate your continued prayers. God Bless.
