

Hello dear friends,

I write this prayer letter to you once again from Cape Town, South Africa, where Wendy and I are helping the same church we were with in June. Our hope is to establish a discipleship program for the regulars at the church, while also looking to bring more people into the church. We are also introducing a newlywed couple that graduated from our college last semester, Wilson and Merari, to the ministry in South Africa. We are working on helping them acclimate to the culture of South Africa, as well as bettering their understanding of English, with the intention of them eventually coming here to help our church plant. Lord-willing, in the future, he will be able to branch out into Johannesburg and begin working at winning souls in what's known as "The Bush," which is a very poor area, but full of people who are extremely receptive to the Gospel.

So far while we've been here, we have led over 60 people to Christ! One of my favorite stories was when Wilson and I were scouting for places to soul-win near the church, and we came across a park with a group of kids arriving to play soccer. This gave us the chance to introduce ourselves, since, being from Mexico, Wilson shared their interest in soccer. I spoke to the man who brought the children. His name was Conrad, and he told me he was already a believer. Then I asked if I could witness to the children, and he said he liked that idea. We were able to sit down and witness to 10 children all at once.

Please pray that these next few weeks continue to be productive with winning souls, bringing people to church, and discipling them.

We saw 51 saved last month.

Thank you all for your continued prayers and support.

-Stephen and Wendy Simmons
